

Glass Cleaner is an innovative formula specifically intended for cleaning glass and other fragile surfaces. The product provides efficient cleaning while dissolving greases and stains (anti-static action). Fast drying with no residue. Based on nature-sourced ingredients, REEFLECT® Glass Cleaner is "non-classified" under European CLP Regulation n°1272/2008.

## REEFLECT GLASS CLEANER (RTU)

*For glass and fragile surfaces*

- COMPLIES WITH BOEING D6-7127 REV P
- REGULATION EC 1907/2006 (REACH)

### PRODUCT CHARACTERISTICS

- Non-flammable
- pH : 9.1 +/- 1
- VOC content = 0% (natural fragrance)
- Efficient cleaning for all glass and fragile surfaces
- Fast drying phase with no residue
- Dissolves greases and stains (anti-static action)
- Suitable for surfaces in contact with food (cf.MSDS)
- P/N: RAG201503

### APPLICATION AREAS

- Reeflect Glass Cleaner can be used on the following surfaces:
- Glass - Mirrors - Screens
  - Windows - Fragile surfaces - Lacquered /Acrylic surfaces

### APPLICATION METHODS

- Using our RTU Spray/Foam option:
- Spray directly onto surfaces to be cleaned
- For vertical & horizontal surfaces, use a cotton cloth and wipe the surface\*
  - In case of greasy stains, wipe in circular motion with a microfiber cloth
  - No need to rinse, except if the surface is to be in contact with foodstuff
  - \* A squeegee may be used for vertical surfaces.
- Clean the squeegee in between swipes.
- \* Do not let the product dry without wiping

### SECURITY

- Consult Material Safety Data Sheet (MSDS)
- No R-phrases
- No Threshold Limit Value
- Not classified under the "Classification, Labelling and Packaging" Regulation n°1272/2008 (CLP Free)
- No Personal Protective Equipment (PPE) required while using
- Not irritant for the skin, eyes, respiratory tract

### PACKAGING

- 500ml (RTU Spray)
- 5L, 20L, 210L, 1000L (RTU IBC)

### STORAGE

- Store inside the original packaging
- Do not expose to temperatures below 10°C, nor above 40°C
